EXPLANATION OF THE GAS METER

Each division on the right hand circle denotes 100 feet, and on the centre circle, 1,000 feet, and on the left hand circle, 10,000 feet. To take a statement from the meter, begin at the left and set down the lowest figures next to the hands on each circle, which in the diagram are 2, 1 and 3; showing the statement to be 32,300. If at a former observation the hands were at the dotted lines, the statement then was 30,300; and the difference between the two statements is the amount of gas consumed—viz., 12,100 cubic feet.
