

Morris Arboretum of the
University of Pennsylvania

Official arboretum of the Commonwealth of Pennsylvania

What's in Color? NOVEMBER

Fagus engleriana

(Engler beech)

Take refuge under the russet limbs of the Engler beech! It is a rare variety and one of our Great Trees.

Near the Swan Pond

Cercidiphyllum japonicum

(Katsura-tree)

Considered by some to be the greatest tree at the Arboretum, the katsura has great fall color and emits a sweet aroma.

Azalea Meadow

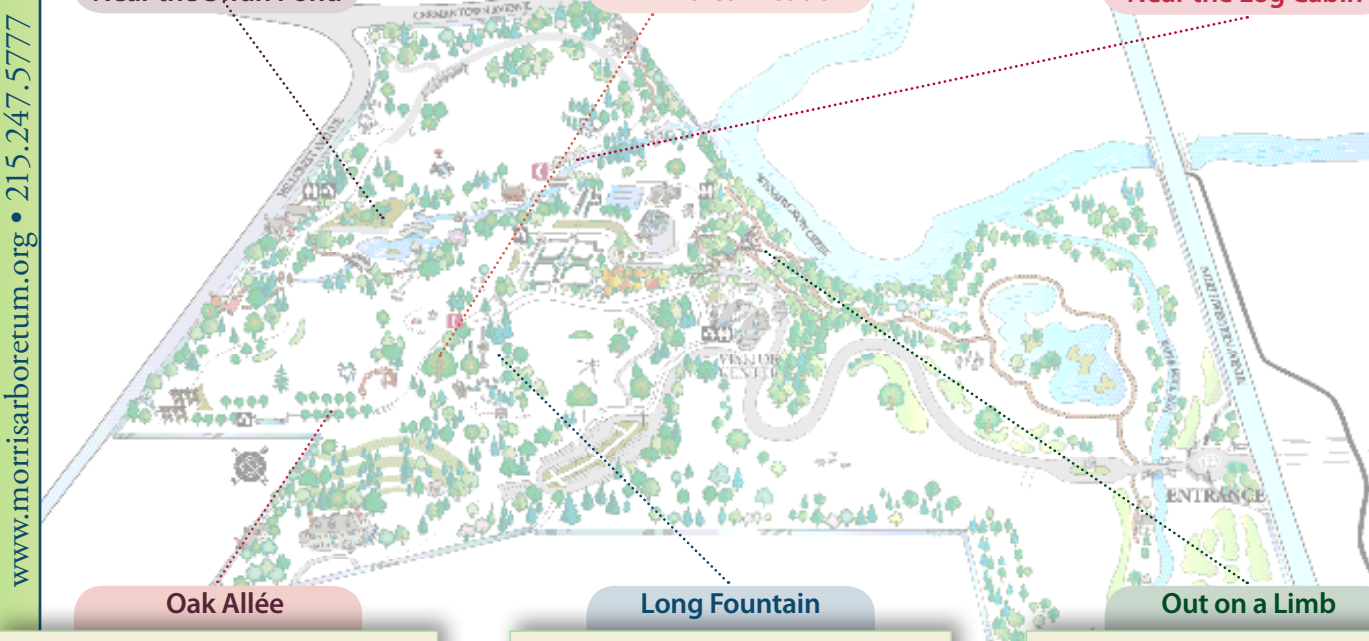

Metasequoia glyptostroboides

(Dawn redwood)

The Dawn redwoods are deciduous conifers that were thought to be extinct until their rediscovery in 1941!

Near the Log Cabin

Oak Allée

Long Fountain

Out on a Limb

Ilex serrata

(Fine tooth holly)

This plant, native to Asia, provides a bright splash of color on the Oak Allée.

Lindera salicifolia

(Willow-leaved spicebush)

The long fountain is brought to life, surrounded by the bright colors and spicy scent of this Laurel family shrub.

Acer palmatum

(Japanese maple)

Vibrant varieties of Japanese maple dot the Arboretum grounds with color this month!
