

Morris Arboretum of the
University of Pennsylvania

Official arboretum of the Commonwealth of Pennsylvania

What's in Bloom **MAY**

Styrax japonica
(Japanese styrax)

This small tree produces fragrant blooms in late May.

Rhododendron austrinum
(Florida azalea)

In early May the native azaleas burst with color all around the Arboretum.

Aquilegia canadensis
(American columbine)

This popular woodland plant attracts hummingbirds in spring.

Rose Garden

Asimina triloba
(common pawpaw)

This native plant has large edible fruit and is said to be deer resistant!

Allium giganteum
(giant allium)

An edible perennial that adds height and color to the beds in May.

Rosa 'Souvenir de la Malmaison'
(Souvenir de la Malmaison)

An antique bourbon rose that is one of many fragrant blooms in the rose garden.
