

Morris Arboretum of the
University of Pennsylvania

Official arboretum of the Commonwealth of Pennsylvania

Winter Interest **JANUARY**

Magnolia grandifolia

'Edith Bogue'

(Edith Bogue southern magnolia)

The rich evergreen of the southern magnolia adds color to the garden railway in the winter months.

Garden Railway

Cedrus atlantica

(blue Atlas cedar)

Its large and unique shape make this cedar a lovely sight in all seasons.

Near Pennock Garden

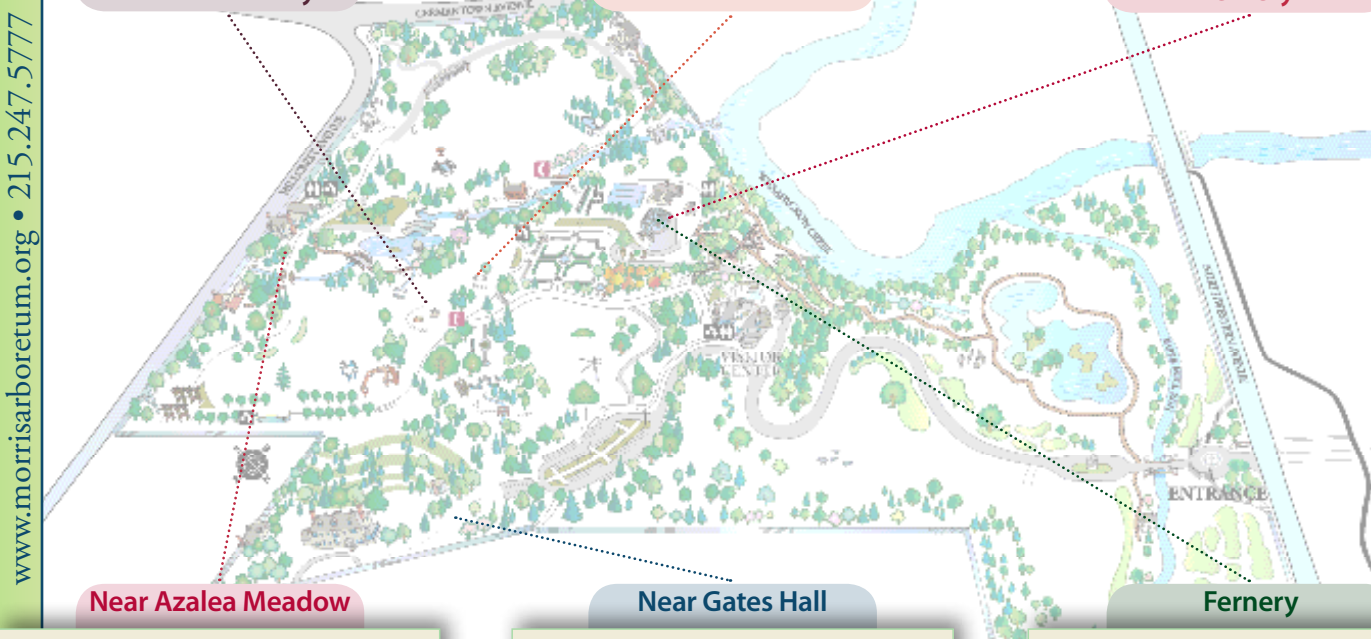

Dicksonia antarctica

(Tasmanian tree fern)

Fossils of this Australian native date to the Jurassic period! Enjoy the warmth of the Fernery in cold February.

Fernery

Corylus fargesii

(filbert)

The exfoliating bark makes the row of filberts an attractive walk in mid-winter.

Near Azalea Meadow

Ilex x koehneana

(Koehne holly)

A hybrid in the Aquifoliaceae, koehne holly can be distinguished by its yellow tipped leaves.

Near Gates Hall

Adiantum peruvianum

(silver dollar fern)

The silver dollar fern can be identified by its large and delicate leaves.
